

## Drill Driver G-series

# DF347DWE

14,4V • 30 Nm • 0 – 1 400 min<sup>-1</sup>

For screwdriving and drilling in two speed

A general-use tool with two speed ranges for screwdriving and drilling. Max. torque of 30 / 15 Nm. Suitable for light professional use or demanding amateur use. Uses G-batteries and they are not compatible with the Makita LXT® range of cordless tools or chargers. Includes 2 x 1.5Ah G-series batteries and a charger.

14.4V

### TECHNICAL SPECIFICATIONS

Vibration Level, Drilling into metal	≤ 2,5 m/s <sup>2</sup>
Vibration Uncertainty (K Factor), Drilling into metal	1,5 m/s <sup>2</sup>
G-series	✓
Nominal Battery Voltage	14,4 V
Battery Chemistry (Ni-Cd / Ni-MH / Li-ion)	Li-ion
No load speed	0 - 400 / 0 - 1400 min <sup>-1</sup>
Max. fastening torque Hard/Soft	30 / 15 Nm
Torque setting	16
Max. Drilling Diameter in Wood	25 mm
Max. Drilling Diameter in Steel	10 mm
Driving Shank	3/8 "
Drill Chuck Capacity	0,8 - 10 mm
Tool weight with battery	1,4 - 1,5 kg
Product Dimensions (L x W x H):	198 x 83 x 235 mm
Plastic Carrying Case	✓

### USER BENEFITS

- The rubber coating on the handle ensures a firm working grip
- Single sleeve keyless chuck enables easy bit installation/removal with one hand
- Weight only 1.4 kg

**EAN 0088381616683**
